2 – Laser Cutting Machines TruLaser 3030/3040 with a 5' x 10' Bed and 7' x 14' Bed and 3/4" mild steel, 5/8" stainless steel, 3/8" aluminum Cutting Capacity

Other Machines

1- Lissmac SMW 123 RT Wet Metal Finishing and Deburring Machine for a perfect surface finish

1 – Strippit CNC Fabrication Punching Turret Punching Machine for High Performance Result

CERTIFICATION

ELIAS CUSTOMER SATISFACTION GUARANTEE

As a full service company, we understand that customer satisfaction is the key to a winning client relationship. Our objective as an organization is to exceed your expectations. To achieve this end, we continually invest in the latest and most advanced technological equipment and resources as well as employ the most highly skilled staff. Coupled with computer based manufacturing management systems and working within procedures set by our quality standards through ISO 9001:2008 Quality System, we trust that you will be satisfied with our services and will allow us the opportunity to quote and supply your metal fabrication requirements.

We welcome your visit for a facility tour and introduction to our capabilities by a knowledgeable sales representative. We are convinced that by providing you with the highest-quality products built to your specifications, on time and at a competitive price, you will be satisfied with our service excellence.
